

MWM VENDING

Brand Kit

MWM Vending & Micro-Markets

Who MWM is

MWM is a full-service vending and micro-market provider for businesses and schools across New England and New York. The team installs and stocks vending machines, coolers, and micro-market setups in workplace break rooms, and positions itself as attentive and people-first — not a faceless equipment drop-off. Quality is the throughline: real food and beverage variety, and equipment made in the USA.

The vending partner that treats your break room like it matters.

PERSONALITY

Professional

Modern

Approachable

Straightforward

Dependable

WHO WE'RE TALKING TO

Office managers, HR and facilities leads, and school administrators — practical decision-makers comparing vendors, not consumers browsing snacks. The brand should read as credible and current, never stiff-corporate and never gimmicky.

Color

Primary colors sampled directly from the logo. Cyan is the energy accent — use it deliberately, not as a second dominant color.

MWM Navy

#2D3192 · RGB 45, 49, 146

Primary brand color: logo, nav, headers, footer, primary buttons.

MWM Cyan

#01AEF0 · RGB 1, 174, 240

Accent: links, icon fills, hover states, one standout CTA per page.

NEUTRALS

Ink

Type

Sora carries headlines — it shares the confident, slightly rounded geometry of the logotype. Inter handles body copy and UI, where plain legibility matters most.

Mark

MWM VENDING

Clear space: keep space equal to the width of the "M" free on every side. Minimum width: 120px — use the icon alone below that.

DO / DON'T

DO

MWM VENDING

Use on white or light (mist) backgrounds at full color.

DON'T

MWM VENDING

Stretch, recolor, shadow, or place on busy photography.

Still needed

A reversed all-white lockup for dark (navy) backgrounds, and a square icon-only mark for the favicon/app icon — neither exists in the current asset yet.

How we sound

Plainspoken over corporate

"Upgrade your break room," not "optimize your convenience services infrastructure."

Benefit first

Lead with what the reader gets — happier employees, zero cost — then back it up with specifics.

Second person

Talk to "you" and "your team" — not "clients" in the abstract.

One light touch

A little wit is welcome in a headline or CTA — sparingly, not throughout the body copy.

Short sentences. Active voice. One idea at a time.

BEFORE THE BUILD

Let's build something great.

- ☐ Create a reversed (all-white) logo lockup for dark backgrounds
- ☐ Create a square icon-only mark for favicon / app icon
- ☐ Confirm CTA color — navy primary, cyan reserved as secondary accent
